

Daisy Journey

By: Troop 60844

**Hold on, for this journey you
will need help from an adult!**

In this
presentation, you
will complete
your “3 Cheers
for Animals”
Journey!

**Some times, we feel happy and other
times we feel mad.**

Animals also have feelings.

**Sometimes they are happy and
sometimes they are mad!**

**Think of three ways you can tell how
an animal is feeling.**

Part One: Birdbath

This step can be earned learning how to care for animals and yourself! (You must complete at least one of the options per part). Remember that both animals and you need to be cared for.

Option 1

Learn about the similarities and differences between how animals act and you act by creating a skit about an animal, using an animal facemask.

Instructions: Use the tutorial to make a face mask. Then, create a skit with your new face mask and perform it for your family!

Your skit can be about anything relating to your animal! Use your imagination. You can use your skit to explore how an animal expresses their feelings. For example, a dog will whine when it is hurt.

Materials needed: Paper, Printer, Coloring Materials, Scissors, Hole Punch, String, Tape

Print your facemask here:

https://docs.google.com/document/d/1wl9INvMkLVuZLLtXnJVofNH7aJrYsd6FdweU5g_W46s/edit?usp=sharing

You can also draw on a paper plate to create a mask if you don't have access to a printer:

<https://www.fun365.orientaltrading.com/article/easy-paper-plate-animal-masks>

Instructions on how to make the face mask:

- Print the mask of your choice
- Cut out the mask
- Color the mask
- Put tape over the holes on the side of the mask to reinforce the hole
- Hole punch out the holes
- Cut a piece of string and attach it to the mask
- Perform you're skit with your new mask

Option 2

Make a bird feeder!
By completing this project, you
will learn to take care of the
animals around you!

Supplies:

- Cardboard – shipping boxes or cereal boxes
- Scissors or craft knife
- Peanut Butter or other nut butter
- Bird Seed (you can also use nuts, peanuts, pine nuts, etc.)
- Ribbon or String
- Hole punch (if not, use scissors or a knife)
- Spoon for Peanut Butter
- Plate for Bird Seed

Instructions:

1. **Cut** out a shape in your cardboard.
2. **Measure** and cut your ribbon or string, 2 feet long, then loop it so it will hang 1 foot down.
3. **Punch** a hole at the top of the cardboard and tie your ribbon or string in a loop, then hang it.
4. **Spread** the peanut butter on both sides of the cardboard.
5. **Pour** the birdseed onto a plate, then press 2 sides of the peanut buttered shape onto the birdseed.
6. **Hang** your feeder!

Option 3

Taking care of a pet can be a lot of work. A cat, for example, needs to be fed, played with, and more. But pets made of paper are very little work. You will love making this origami cat!

Supplies:

- 2 pieces of origami paper

Let's Begin!

Step 1:

Position paper like a diamond.

Step 2:

Fold down halfway and unfold.

Step 3:

Fold across halfway and unfold.

Step 4:

Fold the top point to the center.

Step 5:

Fold the top half down and turn over.

Step 6:

Fold the bottom point up and turn over again.

Step 7:

Fold the left and right corners down towards the middle.

Step 8:

Fold up the left flap like this.

Step 9:

Fold the top point down and fold up the other flap to form the ears.

Step 10:

Turn the paper over.

Step 11:

Fold down a portion of the nose.

Step 12:

Now it's time to do the body. Get another piece of origami paper.

**Follow Steps 1 - 3 for this
second piece of paper!**

Step 13:

Fold the bottom edges to the center like a kite.

Step 14:

Fold out the inside corners.

Step 15:

Fold the inside corners behind the flap.

Step 16:

Here's the tricky fold. Open the left side and fold the left edge to the center while squeezing the open flap and then flattening it. Do this to the right side too.

Step 17:

Turn paper over.

Step 18:

Fold bottom point up.

Step 19:

Turn paper over.

Step 20:

Fold the top point down twice.

**Attach the
head and
you are
done!**

Part Two: Red Robin

This step can be earned by using your new knowledge on animals to teach others about how to care for animals. Remember you only have to do one of the options for each part.

Option 1

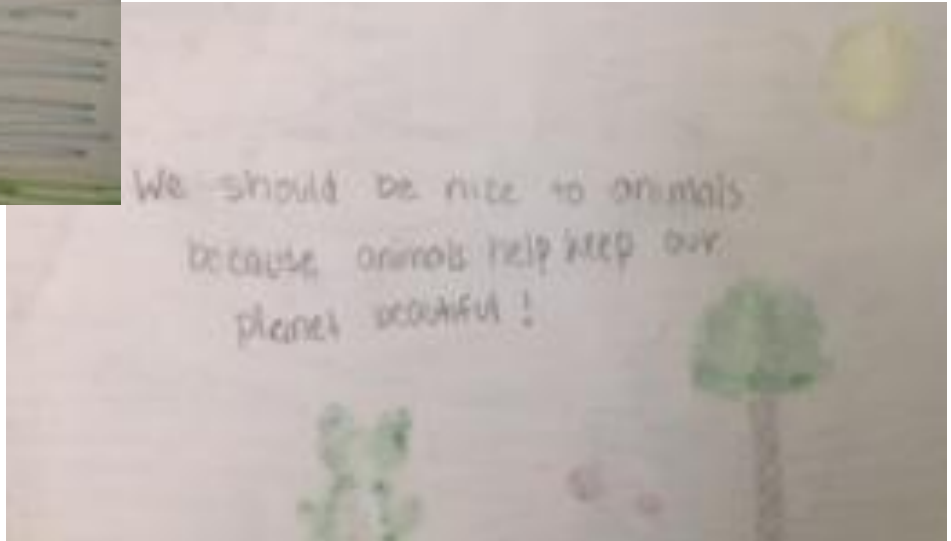

Make a postcard and send it to a friend. You can use your postcard as a way to teach your friend or family about why caring for animals is important.

Instructions: Create a drawing of nature, a tree, river, flowers, animals, and more! On the back of the drawing, write a sentence explaining why being nice to animals is important. When you complete your postcard, you can mail it to a friend, or keep it and show it to your family.

Example!

Option 2

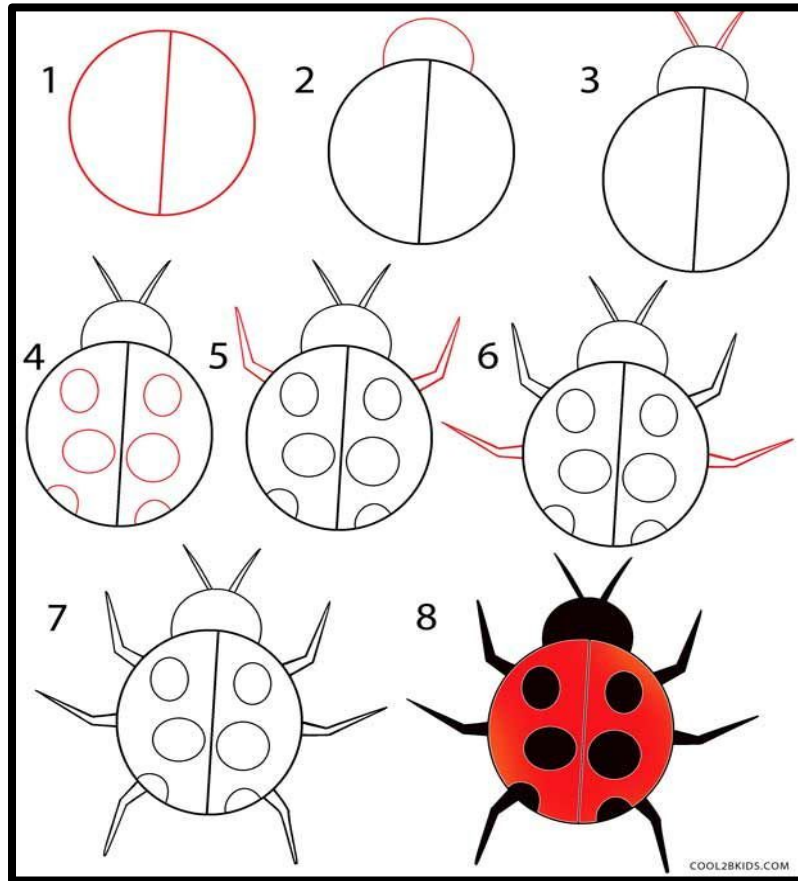

Make a poster explaining how you can care for animals and put that poster in a window or outside your house.

Instructions: Draw pictures of animals on a 8 1/2 by 11 piece of paper and write a sentence about how to care for animals. For example, you can help care for bees by leaving them alone when you see one, instead of bothering them.

—————

Go to the next slide to see an example of what YOU can draw!

How to Draw a Ladybug!

Option 3

Use sidewalk chalk to create drawings of animals/nature on your sidewalk or driveway! You can even write a few words with chalk to remind others that animals are our friends!

*Remember to be careful of cars and have an adult supervise you if you choose this option.

Examples:

Part Three: Tula

In this part, the girls will share with one another the good feelings they have experienced as they taught others in their community about animal care.

This portion of the journey is completed through the All Camp Project, Seed Bombs. The seed bombs will make pretty flowers when you throw them!

https://docs.google.com/document/d/1theHHDraDFqO1ShR7Y_a998zW_O-Rje-_UVnmrVytE8/edit?usp=sharing

Conclusion:

Remember: Animals can not speak for themselves, so we need to do it for them. How can you tell how an animal is feeling?

When you do this, you become a **leader**. Share this with your community!

Great job girls!
You have
completed your
journey 😄
